

CORRIGENDUM

Corrigendum to ICRP *Publication 139: Occupational radiological protection in interventional procedures*. [Ann. ICRP 47(2), 2018]. DOI: 10.1177/0146645317750356.

The following error has been identified in Annex B, Paragraph B9, p. 116:

$$E = \sum_T w_T H_T = \sum_T w_T \sum_T w_T D_{T,R}$$

In the effective dose equation, the second summation should be over R rather than T

$$E = \sum_T w_T H_T = \sum_T w_T \sum_R w_R D_{T,R}$$

ICRP apologises for any inconvenience or confusion caused by this error.
