

ICRP Main Commission Meeting

May 8-12, 2017 – Lima, Peru

The next four-year term of ICRP begins on July 1, 2017. **Elections for Main Commission and Committee membership** took place during this meeting. Effective July 1, the ICRP Main Commission members will be:

Claire Cousins (Chair)

Jacques Lochard (Vice-Chair)

Werner Rühm (C1 Chair)

John Harrison (C2 Chair)

Donald Miller* (C3 Chair)

Donald Cool (C4 Chair)

Simon Bouffler*

Kunwoo Cho*

Michiaki Kai*

Carl-Magnus Larsson

Dominique Laurier*

Senlin Liu*

Sergey Romanov

* New MC Members

Invitations to Committee members went out shortly after the meeting; results will be announced once confirmed.

Julian Preston was unanimously appointed an **Emeritus Member of the Main Commission**, as an expression of appreciation for his extraordinary lifelong contributions to ICRP and radiological protection world-wide.

The reports **Dose Coefficients for Non-human Biota Environmentally Exposed to Radiation**, and **Diagnostic Reference Levels in Medical Imaging** were approved for publication. The draft report **Occupational Intakes of Radionuclides: Part 4** was reviewed, and should be ready for approval for publication within a few months.

Leading up to this meeting, two reports were approved for, and are now undergoing, public consultation: **Occupational Radiological Protection in Interventional Procedures**, and **Ethical Foundations of the System of Radiological Protection**.

The draft joint ICRU/ICRP report **Operational Quantities for External Radiation Exposure** was reviewed, and should soon undergo public consultation on behalf of both organisations using the ICRP consultation mechanism. Once complete, this report will be published by ICRU.

Two reports in advanced stages of drafting were reviewed: **Radiation Weighting Factors for Reference Animals and Plants**, and **The Use of Effective Dose as a Risk-related Radiological Protection Quantity**.

ICRP-ERPW 2017, the **4th International Symposium on the System of Radiological Protection**, in conjunction with the **2nd European Radiological Protection Research Week**, will be in **Paris, October 10-12, 2017**. The event is hosted by IRSN, and organised in collaboration with ALLIANCE, EURADOS, EURAMED, MELODI, and NERIS.
