

Main Commission Meeting

26 – 29 November 2024

Iwaki City, Fukushima, Japan

The meeting of the ICRP Main Commission held in Iwaki City, Japan 26 – 29 November 2024, saw significant progress in the review and revision of the System of Radiological Protection, with three reports approved for publication, two approved for and public consultation, and four presented for information, and the establishment of one new Task Group.

Reports Approved for Publication

Task Group 95 draft report ‘Dose coefficients for intakes of radionuclides by members of the public: Part 2’

Task Group 98 draft report ‘Radiological Protection in Areas Contaminated by Past Activities’

Task Group 113 draft report ‘Reference Organ and Effective Dose Coefficients for Common Radiographic Examinations’

Draft Reports Approved for Public Consultation

Task Group 36 draft report ‘Radiation Dose to Patients in Diagnostic Nuclear Medicine’

Task Group 116 draft report ‘Radiological Protection Aspects of Imaging in Radiotherapy’

Advanced Drafts Presented for Information

Task Group 91 draft report ‘Scientific Evidence Relevant to the Assessment of Solid Cancer Radiation Risk at Low-Dose and Low-Dose-Rate’

Task Group 99 draft report ‘Reference Animal and Plant (RAP) Monographs’

Task Group 103 draft report ‘Pregnant-female Mesh-type Reference Computational Phantoms’

Task Group 111 draft report ‘Factors Governing the Individual Response of Humans to Ionising Radiation’

Newly Established Task Group

Task Group 129 on ‘Ethics in Practice’

The next meeting of the ICRP Main Commission will be held March 2025.

ICRP 2027, the 8th International Symposium on the System of Radiological Protection, will be held in Abu Dhabi, UAE, 7-9 October 2025.
