Announcement Individual Monitoring Services Learning Network

During the

EURADOS Annual Meeting 2017

AM2017

Karlsruhe, Tuesday 28th February 2017

Dear colleagues from dosimetric services,

We are pleased to invite you to the IMS (Individual Monitoring Service) Learning Network.

This is a new initiative from EURADOS (WG2), intended to promote the harmonisation of individual monitoring in Europe by:

- Building on the interest generated at the Individual Monitoring Conferences. These happen every 5 years - too long not discussing, learning, improving, sharing all kinds of dosimetric issues.
- Providing follow-up for colleagues who have attended the WG2 Training Courses on the Technical Recommendations document (RP160)(1)
- Providing a development opportunity for IMS staff.

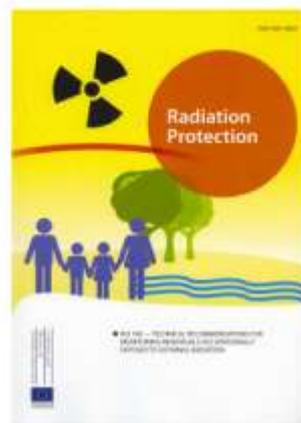

So please join us at the annual meeting at EURADOS for the parallel program on Tuesday. The Learning Network is open to the staff of all individual monitoring services. Please register for the EURADOS Annual Meeting.

What is it about?

During this day we will combine intercomparison participant meeting, external lectures with a practical impact for dosimetry services and intense discussions between peers. The objective is to learn and grow together during this learning network.
